

RIIWHS202D – Enter and work in confined spaces

Course Information

This unit describes a participant's skills and knowledge required to enter and work in confined spaces in the Resources and Infrastructure Industries.

This unit is appropriate for those working in operational roles undertaking work in confined spaces.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and Industry sectors. Relevant information must be sourced prior to application of the unit.

Note: The terms Occupational Health and Safety (OHS) and Work Health and Safety (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the National Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.

Foundation skills essential to performance are explicit in the performance criteria of this unit.

Learning outcome

On completion of the course, participants will have gained the following skills and knowledge to:

- Plan and prepare for working in confined space
- Obtain, confirm, clarify and apply work instructions and agreed procedure
- Obtain, confirm, clarify and apply safety requirements
- Confirm the emergency response procedure is with the stand-by person and understood
- Select tools and equipment for the tasks, check for serviceability and rectify or report any faults
- Identify, confirm and apply the environmental protection requirements
- Enter and exit in confined space correctly
- Ensure that the atmosphere is tested and monitored for harmful elements
- Correctly apply tagging and lock-out procedures
- Maintain ongoing communication with the stand-by person
- Comply with entry permit requirements
- Recover tools, equipment and materials
- Conduct inspection of the confined space
- Accurately complete confined space entry permit
- Clear work area and dispose of or recycle materials
- Clean, check, maintain and store tools and equipment

Course outcome

On successful completion learners will be issued with a Nationally Recognised Statement of Attainment.

Location

Training is conducted at ECB Training Services, or if required, training can also be conducted on your site providing the following requirements are met:

- Training room with tables, chairs & screen
- Suitable clear operating area

Course Duration

Please contact office for further information
